

**> KAEFER International Project Management Qualification - PMQ**

<b>Short description</b>	The PMQ offers KAEFER participants a tailored, yet internationally recognised, training programme. The course modules cover all the knowledge areas within project management as defined by the Project Management Institute (PMI®).
<b>Duration</b>	Approximately 18 months
<b>Programme overview</b>	The programme allows the participants to acquire further theoretical knowledge which they can then transfer to the more practical side of project management. There are interesting project examples to work through during the programme culminating in more professional pro-active project managers.
<b>Perspectives</b>	After completing the three levels via e-learning and knowledge transfer workshops, you will be in a position to take the PMI® Project Management Professional (PMP) examination.
